Subject: RE: Coolers

Jan:
Until we know whether we would have a need for these in the follow-up study should we figure out a way to store these?

Or are they sufficiently inexpensive enough that the cost of shipping and storing far exceeds that of the cost of replacing them (if we have a future need for them)?

donate

Barb and Val,

What do you think?

I'd suggest to donate or to use them for the follow-up study.

Jan

Subject: Coolers

Hi Jan,

Sites have been shipping back the coolers left over from the end of the study. There are 94 boxes of coolers which approximately equals 300 coolers. The dimensions of the boxes are 18 X 14.5 X 23.5. There are some boxes that are much larger because sites repacked them and sent them back to us. They weigh 9 lbs and will cost approximately \$14.00/per box to ship. Do they want them shipped to you, it will cost approximately \$300-400.00 to ship and take up a significant amount of room to store. Or would they like us to donate them.

Please let me know ASAP. We are getting ready to move to our new building and need to clean thing out.

Regards,
Mary
